

Project and Construction Management Dahlak Island Resort

EDESSA was retained by **Qatari Diar** to act as Client Representative and Construction Manager on the design and construction of a major **\$48million** project on **Dahlak Island, in Eritrea**.

The project will include two high luxury 850m² villas for the **Emir of Qatar** and 50 bungalows for VIP guests. In addition and as the project is on a remote and desert island, the project will also include a **desalination plant**, a **wastewater treatment plant** and a **full power plant** to operate the various facilities.
