

Red Sea Hotel – E/M Assessment Massawa, Eritrea

EDESSA was retained by **Qatari Diar** to conduct a thorough electro-mechanical assessment of the **Red Sea Hotel** in **Massawa, Eritrea**. Our team reviewed available electro-mechanical drawings and advised on whether the executed works are in accordance with the electro-mechanical plans. We also reviewed on-site sub-stations including main control panels, transformers and associated cables and electrical risers, standby generators, air-conditioning and mechanical ventilation installations including chillers, air-handling units, fan coil units, fans, cooling towers, pumps, piping ductwork and associated electrical work, hot and cold water systems including boilers, chillers, pumps and pipe-work, sanitary piping and other electro-mechanical systems in place.
